

CENTRAL PLATTE FIRE DISTRICT

201 MAIN STREET, P.O. BOX 1638

Platte City, Missouri 64079 • (816) 858-2231

To The Board of Directors—Public Water Supply District No. 4:

We here at the Central Platte Fire Protection District take pride in the fact that we are servants of the citizens of central Platte County, and we strive at all times to make sure that we are providing them the best level of protection and service possible. As you may already be aware, in an effort to provide the best situation possible for our citizens as well as save them some annual insurance cost, we have been proactively working in cooperation with local agencies and the ISO organization to lower our public ISO rating. This rating determines among other things the amount that our citizens pay for their home owners insurance. This has been no small task, but we have finally completed the process with what we expect to be excellent results.

A very large portion of our area's rating is based upon the amount of water we are able to provide our citizens in an emergency situation and the number of fire hydrants we are able to draw that water from. Being that our last rating was given nearly 10 years ago we were confident that Water District No. 4 had made improvements and would not disappoint, however we were not prepared for the overwhelming success of the tests done by our investigator on the water supply and hydrants and we can confidently say neither was the investigator. He was extremely impressed with the improvements made over the past several years and made it a point to mention the areas outside of Platte City which had improved substantially.

We can say without question that much of the success of this process can be attributed to the dedication of Water District No. 4, it's board of directors, and it's employees. We would like to thank them all for their efforts and extend our gratitude for all the time and materials they dedicated to assisting the citizens in improving their quality of life. Above all we would like to thank one person who dedicated their personal attention and effort to this project and whom without we would have been completely lost...Frank Offutt. His knowledge, skills and experience were an enormous help and we would never have made it to this point without him. He has been a great asset to us, and it is a credit to your organization to have such a knowledgeable and dedicated individual as District Manager.

Thank you again for all of your assistance, it has been greatly appreciated.

Stanley George

President of the Board

Paul Regan

Vice President of the Board
