Community Readiness Challenge
Healthy Kids Challenge
United Services Community
Action Agency

Dear Renee,

On behalf of the Platte County Health Department, we would like to thank you for participating in the 4th Annual Platte City **Go Red For Women** event. This was a simple, powerful way to raise awareness of heart disease and stroke. By joining together with thousands of women, companies and organizations, and cities across America, you helped the American Heart association support ongoing research and education about women and heart disease. Too few people realize that heart disease is the No. 1 killer of women (*and* men), but the good news is heart disease largely can be prevented. Spreading the **Go Red For Women** message raises awareness of heart disease and empowers women to reduce their risk.

Platte County is blessed to have the support and generosity from businesses like you!

Respectfully,

Stacy Benninghoff, Health Educator
Platte County Health Department
